 s. **Warrior**, intense scarlet, grand flower, fine form, very useful,
 scarce colour

SINGLE DAHLIAS.

6/- per dozen, except those priced.

DUKE OF YORK (SERRATIPETALA).—This new Single Dahlia, raised by us, is probably to be the forerunner of an entirely new race. It is of a glowing scarlet; the petals instead of being flat, are, as it were, pleated, with the edges divided into points, generally two and sometimes three points to a petal, giving a fish-tail or scalloped appearance. It is of remarkably free habit, and the petals *never drop*, which is the well-known drawback with the ordinary Single Dahlia. This makes it of great value for cut bloom, and room and table decoration. It has been exhibited several times, and has won great admiration. Wm. Robinson, Esq., editor of the *Garden*, says (*Garden*, Oct. 28th, 1893):—"DAHLIA SERRATIPETALA VARIETY—This comes from Messrs. Kelway, and is *very bright and singular-looking*. What a lovely improvement has taken place in the Dahlia, owing to the Cactus and other forms having knocked the sawdust out of the old dumpling-like forms, pretty as they were in their stodgy way. Surely, no flower shows better the folly of a few men setting up rules that flowers shall be all made like buttons! Alas! poor old Glenny, and all the long-clay and gin-and-water set, and all their lost ideas! Happily, the Dahlia is ten times better than ever it was under their stupefying influence." 8/- per dozen.

James Kelway (Kelway's), a most striking variety, pure white, each petal distinctly edged with purple-lake
BRUTUS (Kelway's), crimson, rayed with vermillion
DUCHESS OF ALBANY (Kelway's), silvery flesh. A most lovely flower, with broad petals, and well formed

HERBACEOUS & ALPINE PLANTS.

GOLD MEDAL, ROYAL BOTANIC SOCIETY.

NOTES.—It must be understood that ANY OF THE FOLLOWING PLANTS WILL THRIVE IN ORDINARY GARDEN SOIL, but that in the soil mentioned they flourish to still greater perfection, and that, where easily obtainable, it will pay to afford them the particular treatment we recommend.

tinged primrose. March to May

STYLOSA SPECIOSA, a finer form than
the species, a beautiful plant.

12/- per doz.

SUBIMFLORA (*BIFLORA*)

THE GLADWYN IRIS.—A most desir-
able ornamental plant, growing
anywhere, but fonder of moist
spots in the shade. The plant
consists of a tuft of handsome
dark green leaves, 2ft. high, and
in June bears purple blossoms,
which give place in the Autumn
to large pods filled with brilliant
orange-coral berries. These re-
main upon the open pods until
the Spring, during which time
they prove of great value for
decoration in vases, churches,
&c., as their brilliancy does not
fade, or their adhesive quality
lessen after being cut

THOMAS BAILEY

TRIDENTATA (*TRIPETALA*), lilac-
purple, veined white. May

TRIOMPHE DE PARIS, lilac, violet
lobes, fine

TUBIFLORA, light blue, dark blue lobes

VARIABILIS, mauve, purple lobes

PELARGONIUMS.

("GERANIUMS.")

NEW SINGLE ZONAL PELARGONIUMS FOR 1895.

18/- per dozen.

CANDACE, rich deep crimson; finer in form than *Henry Jacoby*
 DR. ERNEST RAWSON, deep purple velvety crimson; very distinct
 E. BIDWELL, bright vermilion-scarlet, conspicuous white eye
 ENID, clear bright rosy red, fine shaped blooms
 GERTRUDE PEARSON, pure rose-pink, with conspicuous white blotch on two upper petals
 JOHN FORBES, rich crimson-scarlet, flowers very large, dwarf and free, foliage clear green without zone

MONS. CALVAT, rich crimson-scarlet; very showy
 MRS. FRANK ROTHERA, clear salmon, shaded to nearly white round the eye
 OLIVIA, bright rosy cerise, the upper petals suffused with a darker shade
 WINTIE, bright cherry-red, with distinct white eye; wonderfully free flowering

SINGLE ZONAL PELARGONIUMS OF 1894.

12/- per dozen.

Eleanor, clear bright orange; a very yellow variety; dwarf and free. The best of this colour.
Florence Farmer, white ground, veined and tinted rosy salmon; perfect form, very free.
Dr. Nansen, the best and purest white yet raised, free from all stain even in the hottest weather, of perfect form, very large, free, and of dwarf habit.
Dr. Rothera, dark scarlet, very brilliant, immense flower and truss.

Dr. S. Grey, deep rich crimson, immense flowers, and of very fine form.
Lucrece, bright rosy pink, with white blotches on upper petals, very large, and of good form. A true pure pink tint.
Cenone, salmon, flushed orange, very bright warm shade, very fine form, flower of large size.
O. W. Holmes, something between orange and salmon, a most lovely and unique tint. Good in every respect.

SINGLE ZONAL PELARGONIUMS OF 1893.

8/- per dozen.

Eucharis, pure white, keeps pure in the hottest weather, fine form and habit, and free
Flamingo, scarlet, shaded orange and plum, wonderfully free, and large trusses
Francis Grey, salmon, shaded orange, large, perfect in shape, dwarf and free
Galatea, salmon-rose, white blotch on upper petals, large truss, free

Grace Harvey, pale rose, lighter centre, fine shape, dwarf
Kaiser Frederick, rich plum-purple, dwarf, large trusses
Livy, rich orange-scarlet, upper petals veined crimson, immense flowers and truss
Mlle. Triné, bright rose, shaded plum, fine for winter flowering
Mrs. E. Rawson, rich orange-scarlet, perfect shape
Puritan, white, shaded salmon, good shape

GRAND SINGLE ZONAL PELARGONIUM OF 1892.

12/- per dozen.

JAMES KELWAY.—The most vivid scarlet variety of all; invaluable for bedding and for general culture, both on account of its brilliancy, fine habit and size of flower.

SINGLE ZONAL PELARGONIUMS.

GENERAL COLLECTION.

Good Show Varieties, 16/- per 100.

SABREUR, crimson, medium size, good grower, very free bearer, good for preserving

SIR CHARLES NAPIER, large, very heavy cropper, good for general purposes, and fine for forcing

SIR JAMES PAXTON, a handsome early variety, of a very rich dark glossy colour, strong grower, good constitution, solid, travels and keeps well, good flavour, great cropper

SOUVENIR DE KIEFF, large, handsome fruit, prominent yellow seeds

VICOMTESSE HERICART DE THURY (syn. *Garibaldi*), great cropper, early and fine for forcing

JAPANESE WINEBERRY (*Rubus phaniculatus*).

More hardy and vigorous than any Raspberry or Blackberry. Large clusters of scarlet wine-colour, very sprightly, sweet in flavour, and very juicy, with small seeds. Ripens from July onwards; exceedingly prolific. A beautiful and profitable fruit for preserving, cooking, or wine-making. *First-class Certificate* awarded to KELWAY & SON for this charming ornamental plant. 50/- 100.

KELWAY'S MILK WHITE ARTICHOKE.

QUITE A NOVELTY, far whiter and very much smoother than the old purple Jerusalem Artichoke. The fact of its being a better colour renders it a greater favourite when cooked, and being less dented, through the eyes being set nearer the surface, the root is more edible throughout, and there is less waste. **The Creamy Flavour** attached to this is much before that of the purple, rendering it a great acquisition. It is liked by those people who are not partial to the old variety. We have been growing this largely since its discovery, and offer it to the trade at per cwt. s. d.
